Sensors & Controllers

CONTROLLER ^{New}

c us ISO-9001 CE

High accuracy PID temperature controllers TK Series

- * Super high-speed sampling cycle (10 times faster) 50ms sampling cycle and 0.3% display-accuracy.
- * Improved visibility with wide display part and high luminance LED
- * High performance controlling with heating/cooling control and automatic/manual control modes
- * PC parameter setting via USB cable and RS485 connection (Modbus RTU)
 - : DAQMaster - free PC loader program supported
 - : Dedicated USB cable - sold separately (SCM-US)
- * SSR output/Current output selectable
- * SSRP output (standard/phase/cycle/control selectable)
- * Heater burn-out alarm (C.T input) (except TK4SP)
- * Multi SV setting function (Max. 4) - selectable via digital input terminals
- * Mounting space saving with compact design
 - : downsized by approx. 38%(60mm) in depth compared to existing models
- * Multi input / Multi range
